C. Duties

Punjab has a total geographical area of 50.36 lacs hectares. Out of which, 42.68 lacs ha area is under cultivation. The soils in the State of Punjab is facing severe degradation because of many reasons, which includes soils erosion, raising water table, salt affected soil, over use of chemical etc. About 39% of the Soils in the State are degraded..

This department is serving the state since the year 1969 for conservation of 2 important natural resources of soil & water. Till date, the department, through various Govt. of India/State schemes, has benefited 746637 hectares of land by way of various activities like Land leveling, Bench Terracing, Underground Pipeline Systems, Contour bunding, Gully Reclamation, Waste land development, Watershed Management, Water Harvesting Structure, Tapping of Hill Seepage, Lift irrigation schemes including Hydrams, Field Drainage, Drip Irrigation etc. These works are also helping to save approx. 329 Million Cubic Metres (MCM) of water every year. In the absence of these works, the surface & ground water resources would have suffered greater losses as this quantity of water was to be drawn out of them only.

The implementation of watershed development schemes by department has helped in checking soil erosion resulting in increased land productivity. The harvesting of rain water helped in conserving the moisture in-situ and recharge the ground water. Water availability for human consumption, livestock and irrigation is also augmented. The underground water level which is fast depleting has been checked. For judicious use of precious ground water, improved on farm water management practices are propagated. Sprinkler irrigation system is being promoted by providing subsidy incentive. In order to improve on farm water conveyance by reducing evaporation and seepage losses from field channel and to avoid labour intensive process of maintenance of open channels, under ground pipelines system of water conveyance is being promoted, Drip/Sprinkler Irrigation systems are being promoted by providing subsidy incentives.

The duties and responsibilities of officers/officials of the department have been defined in the Punjab Soil Conservation Rules as Annexure-3.

**** Organization chart of Department of Soil & Water Conservation, Punjab is enclosed as Annexure-1**

7th Manual

The particulars of any arrangement that exists for the consultation with or representation by the members of the public in relation to the formulation of its policy or administration thereof.

- a. The Department formulates its programmes and schemes keeping in view the feedback received from the public. The department is regularly in touch with the public through field visits, awareness camps, demonstrations, training programmes, seminars etc. The problems faced by public is taken as priority for formulation of schemes
- b. The farmers form the base level of planning and play important role in execution of various schemes
- c. In the watershed programmes implemented by department panchayats of villages play the pivotal role. All the watershed based programmes are implemented by active participation of the stakeholders.
- d. It has participatory approach that seeks to secure close involvement of the user communities. The broad objective was the promotion of the overall economic development and improvement of the socio economic conditions of the resource poor sections of people inhabiting the programme areas.
- e. User Groups/ Self Help Groups are formed under watershed programmes from within the public.
- f. The feedback and problems relating to research is passed on to the research institutes for investigations and remedial measures.

List of Committees formed with consultation or representation from public are:

1. **The District Micro Irrigation Committee:** The DMIC is headed by the Chief Executive Officer (CEO) of Zila Parishad/District Rural Development Agency (DRDA)/Collector of the District having its members/ representatives from concerned Departments viz. Agriculture, Horticulture, Rural Development, Irrigation and Water resources, Growers' Association, Krishi Vigyan kendras (KVKs) and 15 representative of the local lead Banks including the IA. The local Panchayat Raj Institutions (PRIs) are involved in implementation of MI Scheme to the extent and manner

considered appropriate by the IA keeping in view the capacity of the PRI. The District Horticulture Officer/ District Agriculture Officer is the Member Secretary of DMIC. The DMIC has following functions:

- Review and forward the Action Plan and forwards it to the Ministry of Agriculture through SMIC.
- Mobilize credit requirement of the farmers for installing Micro Irrigation System through the Financial Institutions.
- Monitor and review the physical & financial progress of implementation of MI Scheme.
- Review the submission of utilization certificate by the IA.
- Provide feed back to State Micro Irrigation Committee on monthly basis.

2. District watershed Committees.: At the district level Watershed Committee monitors the programme. It monitors and tries to resolve shortcomings in the programme every fortnight. The Collector/DC, PIAs, district level relevant departments and people's representative are a part of this committee. In addition Watershed Development Teams for each P.I.A., consisting of Block-level officials of various departments are formed. The president, Zila Panchayat is the patron of Watershed Committee at the district level. District and Gram Panchayats' representatives are involved in watershed development activities at all levels. People representatives' help is taken in PRA exercise and preparation of action plans also. Every Watershed Development Committee necessarily includes three to four Gram Panchayat members

3. User Groups/ Self Help Groups (SHG) under watershed programmes: SHG is group of rural poor who have volunteered to organise themselves into a group for eradication of poverty of the members. They agree to save regularly and convert their savings into a Common Fund known as the Group corpus. The members of the group agree to use this common fund and such other funds that they may receive as a group through a common management. The group formation will keep in view the following broad guidelines :

Generally a self-help group may consist of 10 to 20 persons. However, in difficult areas like deserts, hills and areas with scattered and sparse population and in case of minor irrigation and disabled persons, this number may be from 5-20. Generally all members of the group should belong to families below the poverty line. However, if necessary, a maximum of 20% and in exceptional cases, where essentially required, upto a maximum of 30% of the members in a group may be taken from families marginally above the poverty line living contiguously with BPL families and if they are acceptable to the BPL members of the group. This will help the families of occupational groups like agricultural labourers, marginal farmers and artisans marginally above the poverty line, or who may have been excluded from the BPL list to become members of the Self Help Group. However, the APL members will not be eligible for the subsidy under the scheme. The group shall not consist of more than one member from the same family. A person should not be a member of more than one group. The BPL families must actively participate in the management and decision making, which should not ordinarily be entirely in the hands of APL families. Further, APL members of the Self Help Group shall not become office bearers (Group Leader, Assistant Group Leader or Treasurer) of the Group. The group should devise a code of conduct (Group management norms) to bind itself. This should be in the form of regular meetings (weekly or fortnightly), functioning in a democratic manner, allowing free exchange of views, participation by the members in the decision making process. The group should be able to draw up an agenda for each meeting and take up discussions as per the agenda. The members should build their corpus through regular savings. The group should be able to collect the minimum voluntary saving amount from all the members regularly in the group meetings. The savings so collected will be the group corpus fund. The group corpus fund should be used to advance loans to the members. The group should develop financial management norms covering the loan sanction procedure, repayment schedule and interest rates.
