CHAPTER NO. 32 HORTICULTURE

Notes:-

- (i) The rates given under this chapter are subject to the P.W.D. specifications.
- (ii) Stacks of well decayed farm yard manure 32.5 cm in height, shall be measured and paid for 30 cm height.
- (iii) The through rates include the cost of water charges.
- (iv) The rates noted below are applicable for gardening works in lawns of the buildings, road sides, high slopes, canal embankments and arboriculture. The depth required to be excavated for planting of trees/grass etc. shall be decided by the Engineer-in-charge with due difference to the site and climatic conditions.
- (v) The procurement of earth/sludge or manure shall be from the sources as specified by the Engineer-in-charge. In case these are imported from a distant place longer than the ones specified in the items additional rates shall be paid on the basis of cheapest mode of transport.
- (vi) The cost of saplings of trees /shrubs potted plants and specimen plant or grass etc., if specifically procured for planting shall be paid separately
